

Hi Ralph,

Thank you for your great help for my visa problem.  
Everything was O.K. AGAIN.

Now. Instead of me. Sharon Grace sent you video machine  
to you. by U.P.S., maybe You already got it.

and I beg your pardon to set <sup>not</sup> Q-Audio generator inside  
of Video Synthesizer, that was my fault. I did not have  
time to do it even in Japan and, also. SAN FRANCISCO  
I had time problem in TOKYO, Every day ... busy job  
in SAN FRANCISCO, I had a time but could not find  
nice Oscilloscope at first. it made great loss of  
my work.

It would be best solution that you could keep.  
new machine and <sup>switch it</sup> former machine you had ~~leave~~  
~~your place.~~ 2 years ago.

Perhaps next year or end of this year, I could come BGM  
and set New. Audio generator cct. It would be best  
solution.

~~Please~~ Would you please wait for a year for it.  
It is my duty.

And please keep my paper Box one more year in  
your house. Time solves Every-thing.

Next time I must save my time for V.S. (Video Synthesizer)

It would be best time to make own printed circuit for it  
So that I will save time almost 60%, and have good  
reliability also,

Now June wants two new (V.S.), also I want to have  
my own V.S.. Buoy day again!

Next time I will be able to make V.S., same size of New  
York V.S., but including genlock-sync-generator, and  
3 to 4 audio generators, in case including switcher (keyer).

It would be Future True Dream

Say Hello to Sherry, <sup>Mr</sup> DAVE, Br! Ralph.
